

# CONCEPT FORUM

**Concept Forum** specialises in the design and manufacture of permanent and semi-permanent retail displays and POS solutions. In 2002, we started out specialising in vacuum-formed displays and have since evolved and grown our manufacturing capabilities. Our portfolio features work for many prominent national and global brands.

Driven by a passion for service, quality and successful outcomes, we position ourselves to provide a more agile customer focus where, through relationship building, we are seen as partners with our customers rather than suppliers.

Carpet wall stand

Cosmetic gondola

Our team of Designers and Fabricators build on their years of experience to develop innovative concepts and solutions for briefs, whether simple or complex.

We provide a wide range of retail display products including point-of-sale units, shelving, countertop displays, freestanding units, fixture suites, exhibition stands – all designed to create lasting impressions.
